The HOME Safe at Home Program is funded through the US Department of Housing & Urban Development HOME Investment Partnership Program created by the National Affordable Housing Act of 1990. **The goal of Safe at Home is to provide qualified Woonsocket homeowners with a loan of up to \$20,000 per unit (maximum of \$80,000) to assist with the cost of complying with RI State Property Maintenance Code, making code-related repairs and removing lead hazards.** HOME is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, as amended. Program regulations are at 24 CFR Part 92.

In the administration of all City programs, the City of Woonsocket makes every effort to ensure non-discriminatory treatment, outreach and access to program resources. This applies to contracting, as well as to marketing and selection of program participants.

Please let us know if your program participation requires specific accommodations for a disability, or if you need an interpreter and/or other auxiliary aid for effective communication.

City of Woonsocket Safe at HOME Repair Cost Assistance

PROGRAM SUMMARY

Financial Assistance

For purposes of complying with RI State Property Maintenance Code and HUD Property Condition standards at 24 CFR 92.251, making code-related repairs and lead hazard remediation, the City of Woonsocket will offer a loan in an amount:

Up to **\$20,000 per unit (\$80,000 maximum)**, to owners of owner-occupied affordable rental properties
Affordability is determined by occupant income and rent limits.

Loan Structure

Financial assistance will be in the form of a no-interest 50% forgivable and 50% deferred loan.

The deferred portion of the loan is repayable when there is a sale, change, or transfer of title.

The forgivable portion of the loan is forgiven after the affordability period expires. The affordability period is the period of time to which the owner agrees to maintain affordable units, which starts at time of project completion—either 5, 10 or 15 years, depending on how much funding is provided. (See Monitoring Section).

Equity

Equity to cover the deferred loan amount is required. A current (not more than one year old) certified appraisal (limited scope with drive-by or full appraisal) may be used to calculate value (appraised property value less current mortgage balance). If a current appraisal is unavailable, the City's current tax assessment may be used. Appraisals must be completed by a State of RI licensed appraiser. Desk-top appraisals (defined as no drive-by or site visit) are not acceptable.

Project Administration Fees

The Program will charge program processing/underwriting and monitoring fees to the federal project account upon completion.

Owner Gap Contribution

If project rehab costs exceed the HOME maximum assistance of \$80,000 for rental properties, the owner must be willing and able to finance the gap. Proof of willingness and ability may include a restricted escrow account and/or other security device.

Title Report

A title report, which will be provided by the Program, is required to validate ownership and determine liens.

The City will not approve a Home project or subordinate City rehab. loans unless it will be in first or second position only.

Site Control

Applicant must provide Deed/Title with the application.

City of Woonsocket Safe at HOME Repair Cost Assistance

Income Eligibility

See **EXHIBIT A** for income limits.

Owners are required to provide valid documentation of their income and tenant income. The Program will determine income eligibility based on annual Adjusted Gross Income.

Households must qualify as low income at the time of occupancy or when HOME funds are invested, whichever is later. Proof of income must be current and no more than 6 months old.

Rental Rate Qualification

See **EXHIBIT B** for HOME Program Rent Limits.

Rent amounts shown include all utilities. If the tenant pays some or all utilities, you must subtract the corresponding utility amounts in Exhibit C from the Rent amount (found in Exhibit B).

Owners are required to provide a copy of rental agreements or leases with their application. Rent amounts cannot exceed the Program Rent Rates established by HUD.

Utility Allowances for Rental Units

See **EXHIBIT C** for Utility Allowances.

Calculate monthly dollar allowances according to number of bedrooms in each unit. All HOME rent limits are gross rents. If utilities are not included in rent, the owner must deduct the utilities allowance from the rent amounts in Exhibit B and calculate maximum rent allowed.

Affordability Terms for Rental Units

The term of required affordability is determined by the number of **assisted** units, as well as the amount of assistance. A mortgage lien will enforce this provision. Affordability:

- \$1000-\$14,999 per unit = 5 years affordability
- \$15,000-\$40,000 per unit = 10 years affordability
- More than \$40,000 per unit = 15 years
- New construction = 20 years of affordability

Taxes, Water & Sewer

Owners must be current on all taxes, water/sewer usage, and sewer assessment. Properties cannot be involved in a foreclosure proceeding.

Insurance

Mortgage execution is contingent upon proof of paid insurance with the City as a named insured.

Inspections

- Comprehensive Lead Inspection/Assessment (CLI) by a state-licensed environmental lead inspector required prior to project start date. The City will pay for this from the Application Processing and Underwriting Fees Revenue Account.
- Certification of Lead Safe Clearance (CLSC) – required upon project completion.
- Visual Assessment (VS) – The City Construction Supervisor will conduct a Program Inspection per HUD guidelines /UPCS definitions and RI State Property Maintenance Code prior to project start.
- Site Inspections – The City Construction Supervisor will conduct random site inspections to approve requests for payment.
- Affordability Period Inspections – Throughout the Affordability Period, and to meet HUD monitoring requirements, the City will conduct an inspection of rental units. Inspections will focus on code-related items and lead-based paint hazards to ensure compliance with RI State Maintenance Code and HUD Property Standards.
- Environmental Review – Level of review is based on scope of repairs and changes in unit use or density.

Mandatory Rehab Areas

All Minimum Housing Code Violations and Lead-Based Paint Hazards must be corrected according to federal regulations and RI Property Maintenance Code. These regulations control how the work is to be performed and who is allowed to perform the work. Work is determined by Construction Supervisor and based on Program discretion.

Specification Approval

Specifications will be prepared by the City Construction Supervisor and must be reviewed and approved by the owner prior to bid solicitation.

Procurement of Services and Contractor Selection

The HOME Program provides contractors for their services, labor and materials in compliance with federal procurement standards. The Construction Supervisor prepares specifications and bids are solicited to obtain bids for each line item of work for each project. After the procurement and assessment of Competitive Sealed

Bids, the lowest qualified responsive bidder(s) will be selected by the Program to perform the work. The City Program will provide a registered and lead certified contractor through the project and process.

Federal procurement standards must be applied in the selection of contractors. Bids must be comparable. Contract provisions must meet federal requirements (24 CFR 85.36). The City will prepare all legal documents.

All contractors must be City-certified, licensed and registered by the State of RI. All contractors must provide evidence of liability insurance coverage and worker's compensation coverage (if required by RI Law) in order to be allowed to participate in the Program.

Building Permits for all permitted work must be obtained by the contractor prior to commencement of work.

Additional licenses and certifications may be required by the City in accordance with RI General Law, RI Contractors' Registration Board, HUD's Regulation on Controlling Lead-Based Paint Hazards, and the City of Woonsocket's Building Department.

Change Orders (COs) & Contingency Items

No contingency line item is permitted in the scope of work. If a necessary item was not identified prior to contract, and/or a change of scope is needed to complete the job, such changes will be considered on a case-by-case basis.

If a rental project is at the cap of \$20,000 per unit, no CO-federal financing will be approved. If a rental project is less than maximum amount allowed by Program, Change Orders (up to the cap of \$20,000 PU) may be approved and will be added to the Deferred Loan amount and Rehabilitation Contract. If a financial gap between the total cost and maximum allowable exists, for whatever reason, it will be the owner's responsibility.

Relocation

The Certified Lead Contractor will determine and certify, with the owner, the need for relocation. If your proposal involves relocation you must customize and send the HUD General Information Notice (GIN) to tenants at the same time that you submit this application. Include a copy of the GIN with your application. For more information on relocation, visit:

<http://www.hud.gov/offices/adm/hudclips/handbooks/cpdh/1378.0/index.cfm>

Monitoring of Rental Units for Affordability & Safety

During the term of affordability period, the owner must lease units only to those applicants at or below the area median income established in their agreement and at the rent amount limited by HUD. Property inspections will be scheduled to determine if the property continues to meet property standards. The City will monitor for compliance annually. A separate monitory compliance information package will be provided upon contract execution.

Loan Subordination

A Request for Subordination may be made to the City if owner is looking to refinance, and a subordination is granted if the refinance or new loan terms meet the City Subordination Guidelines.

ANNUAL MONITORING of Rental Units -- POLICY & PROCEDURE

It is the City policy to monitor program participants' compliance with loan and other program regulations and documents **annually**.

All recipients of federal funds are given this Monitoring Policy to read and are required to sign this statement acknowledging that they have read this procedure and understand it fully.

It will be recognized by all parties, that not adhering to the following requirements will constitute an act of default of the federal funds awarded.

The City's Program Manager will send a yearly anniversary letter to each program participant approximately one month before the Anniversary (the date loan agreements were executed). The purpose of this letter will be to remind participants of their responsibilities under the program. It will outline the information required by the Housing Division of the Planning and Development Department and as detailed in the loan documents.

Enclosed with the anniversary letter will be the HUD Program Income & Rent Limits and the Utility Allowance Chart. These charts help program participants assess whether they have met income and rent programmatic requirements.

If a program participant does not respond to the Program Manager's letter, within a month period, a **Final Notice** is sent to recipient stating that if information is not received within thirty days, the recipient will be in default of their agreement. The City Solicitor will be notified to take all necessary action for the full reimbursement of funds awarded.

My/Our signature(s) acknowledge that I/We have read and understand the above Policy.

HOME RENTAL REHAB – LEASE PROVISIONS: To comply with 24 CFR 92.253, this exhibit serves as an amendment to the lease agreement now in effect for HOME-assisted rental units located at

92.253 Tenant and participant protections.

(a) *Lease.* The lease between a tenant and an owner of rental housing assisted with HOME funds must be for not less than one year, unless by mutual agreement between the tenant and the owner.

(b) ***Prohibited lease terms.*** The lease may not contain any of the following provisions:

(1) *Agreement to be sued.* Agreement by the tenant to be sued, to admit guilt or to a judgment in favor of the owner in a lawsuit brought in connection with the lease;

(2) *Treatment of property.* Agreement by the tenant that the owner may take, hold, or sell personal property of household members without notice to the tenant and a court decision on the rights of the parties. This prohibition, however, does not apply to an agreement by the tenant concerning disposition of personal property remaining in the housing unit after the tenant has moved out of the unit. The owner may dispose of this personal property in accordance with State law;

(3) *Excusing owner from responsibility.* Agreement by the tenant not to hold the owner or the owner's agents legally responsible for any action or failure to act, whether intentional or negligent;

(4) *Waiver of notice.* Agreement of the tenant that the owner may institute a lawsuit without notice to the tenant;

(5) *Waiver of legal proceedings.* Agreement by the tenant that the owner may evict the tenant or household members without instituting a civil court proceeding in which the tenant has the opportunity to present a defense, or before a court decision on the rights of the parties;

(6) *Waiver of a jury trial.* Agreement by the tenant to waive any right to a trial by jury;

(7) *Waiver of right to appeal court decision.* Agreement by the tenant to waive the tenant's right to appeal, or to otherwise challenge in court, a court decision in connection with the lease; and

(8) *Tenant chargeable with cost of legal actions regardless of outcome.* Agreement by the tenant to pay attorney's fees or other legal costs even if the tenant wins in a court proceeding by the owner against the tenant. The tenant, however, may be obligated to pay costs if the tenant loses.

IF ANY OF THE PROHIBITED PROVISIONS ARE CONTAINED WITHIN THE LEASE THEY ARE CONSIDERED VOID AND UNENFORCEABLE.

(c) *Termination of tenancy.* An owner may not terminate the tenancy or refuse to renew the lease of a tenant of rental housing assisted with HOME funds except for serious or repeated violation of the terms and conditions of the lease; for violation of applicable Federal, State, or local law; for completion of the tenancy period for transitional housing; or for other good cause. To terminate or refuse to renew tenancy, the owner must serve written notice upon the tenant specifying the grounds for the action at least 30 days before the termination of tenancy.

(d) Rent may not exceed the applicable HOME Investment Partnership Program rent limit in effect at the time the lease was signed.

(e) Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of known lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention.

The presence of known lead-based paint and/or lead-based paint hazards in the dwelling have been disclosed to the lessees. Lessees have received a federally approved pamphlet on lead poisoning prevention.

A COPY OF THIS AMENDMENT HAS BEEN GIVEN TO THE TENANT OF THE RENTAL UNIT CITED ABOVE.

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT
OFFICE OF COMMUNITY PLANNING AND DEVELOPMENT
WATCH OUT FOR LEAD BASED PAINT POISONING
NOTIFICATION

TO: OWNERS AND TENANTS OF HOUSING CONSTRUCTED BEFORE 1978

If a property was constructed before 1978, there is a possibility it contains lead-based paint.

PLEASE READ THE FOLLOWING INFORMATION CONCERNING LEAD PAINT POISONING.

Sources of Lead Based Paint

The interiors of older homes and apartments often have layers of lead-based paint on the walls, ceilings, windowsills and doorframes. Lead-based paint and primers may also have been used on outside porches, railings, garages, fire escapes and lampposts. When the paint chips, flakes or peels off, there may be a real danger for babies and young children. Children may eat paint chips or chew on painted railings, windowsills or other items when parents are not around. Children can also ingest lead even if they do not specifically eat paint chips. For example, when children play in an area where there are loose paint chips or dust particles containing lead, they may get these particles on their hands, put their hands into their mouths, and ingest a dangerous amount of lead.

Hazards of Lead-Based Paint

Lead poisoning is dangerous--especially to children under the age of seven (7). It can eventually cause mental retardation, blindness and even death.

Symptoms of Lead-Based Paint Poisoning

Has your child been especially cranky or irritable? Is he or she eating normally? Does your child have stomachaches and vomiting? Does he or she complain about headaches? Is your child unwilling to play? These may be signs of lead poisoning. Many times though, there are no symptoms at all. Because there are no symptoms does not mean that you should not be concerned if you believe your child has been exposed to lead-based paint.

Advisability and Availability of Blood Lead Level Screening

If you suspect that your child has eaten chips of paint or someone told you this, you should take your child to the doctor or clinic for testing. If the test shows that your child has an elevated blood lead level, treatment is available. Contact your doctor or local health department for help or more information. Lead screening and treatment are available through the Medicaid Program for those who are eligible. If your child is identified as having an elevated blood lead level, you should immediately notify the Community Development or other agency to which you or your landlord is applying for rehabilitation assistance so the necessary steps can be taken to test your unit for lead based paint hazards. If your unit does have lead-based paint, you may be eligible for assistance to abate that hazard.

Precautions to Take to Prevent Lead-Based Paint Poisoning

You can avoid lead-based paint poisoning by performing some preventive maintenance. Look at your walls, ceilings, doorframes and windowsills. Are there places where the paint is peeling, flaking, chipping, or powdering? If so, there are some things you can do immediately to protect your child:

- (a) Cover all furniture and appliances;
- (b) Get a broom or stiff brush and remove all loose pieces of paint from walls, woodwork, window wells and ceilings;
- (c) Sweep up all pieces of paint and plaster and put them in a paper bag or wrap them in newspaper. Put these packages in the trash can. **DO NOT BURN THEM.**
- (d) Do not leave paint chips on the floor or in window wells. Damp mop floors and windowsills in and around the work area to remove all dust and paint particles. Keeping these areas clear of paint chips, dust and dirt is easy and very important; and
- (e) Do not allow loose paint to remain within your children's reach since children may pick loose paint off the lower part of the walls.

Homeowner Maintenance and Treatment of Lead-Based Paint Hazards

As a homeowner, you should take the necessary steps to keep your home in good shape. Water leaks from faulty plumbing, defective roofs and exterior holes or breaks may admit rain and dampness into the interior of your home. These conditions damage walls and ceilings and cause paint to peel, crack or flake. These conditions should be corrected immediately. Before repainting,

All surfaces that are peeling, cracking, chipping or loose should be thoroughly cleaned by scraping or brushing the loose paint from the surface, then repainted with two (2) coats of non-lead paint. Instead of scraping and repainting, the surface may be covered with other material such as wallboard, gypsum or paneling. Beware that when lead-based paint is removed by scraping or sanding, a dust is created, which may be hazardous. The dust can enter the body either by breathing or swallowing it. The use of heat or paint removers could create a vapor or fume which may cause poisoning if inhaled over a long period of time. Whenever possible, the removal of lead-based paint should take place when there are no children or pregnant women on the premises. **SIMPLY PAINTING OVER DEFECTIVE LEAD-BASED PAINT SURFACES DOES NOT ELIMINATE THE HAZARD. REMEMBER THAT YOU CAN AS AN ADULT PLAY A MAJOR ROLE IN THE PREVENTION OF LEAD POISONING. YOUR ACTIONS AND AWARENESS ABOUT THE LEAD PROBLEM CAN MAKE A BIG DIFFERENCE.**

Tenant and Homebuyer Responsibilities

You should immediately notify the management office or the agency through which you are purchasing your home if the unit has flaking, chipping, powdering or peeling paint, water leaks from plumbing, or a defective roof. You should cooperate with that office's effort to repair the unit.

I have received a copy of the Notice entitled "Watch Out for Lead Paint Poisoning" and reviewed "Protect Your Family From Lead in Your HOME" at <https://www.epa.gov/lead/protect-your-family-lead-your-home>
