For: Immediate Release

MAYOR PRAISES ACTION OF WOONSOCKET POLICE AFTER DRUG SEIZURE

On behalf of all the citizens of our community, I would like to express our collective gratitude to the Narcotics Unit and the Special Response Team of the Woonsocket Police Department for their recent seizure of dangerous drugs, narcotics and other controlled substances that could have easily found their way to the streets of our city. The diligence and hard work of our police officers preempted the plans of these criminals. The fact that this seizure occurred in close proximity to a neighborhood school only underscores the importance of this seizure.

To all those who threaten our city and its residents, you have no place to hide. If you engage in illegal behavior and drug sales, you will be found, arrested, prosecuted and imprisoned for your crimes. Our residents deserve no less.

And we should never forget the daily sacrifice made by those who form the thin blue line that protects our families, adults and children alike. You have our respect and enduring gratitude.
