Date:11/30/2016

Attached is a scope of work to replace & upgrade the existing generator at the Woonsocket Police Station.

This is a design build project to include the following

- Police Station
 - Install new 125 KW diesel generator with 72hr tank outdoors near existing generator on new concrete pad.
 - Install new service rated 1200a transfer switch to code in basement switchgear room.
 - Install generator annunciator @ bldg main entrance.
 - Connect all existing bldg loads through new transfer switch to generator.
 - All excavating, site work and concrete pad installation
 - Contractor to ensure uninterrupted power supply during new generator installation.
- Provide 1 line engineered stamped drawing for entire project.
- Permit @ ADA fee only.
- Comply with Utility service entrance requirements and include costs of any changes of existing.
- Generator as specified, written approval for substitution required.
- Provide load bank testing @ each site.
- All material included.
- All labor @ prevailing wage.
- The removal and disposal of the existing generator, fuel, fuel tank and existing concrete fuel tank pad shall be provided by the City of Woonsocket
- All security fence work required for new generator shall be provided by City of Woonsocket.
- Generator fuel supplied by City of Woonsocket.
- Bid bond or certified check equal to 10% of bid required.
- Performance bond required for contract award.
