Technic Consent Agreement

As of April 2010, Technic changed their manufacturing process which resulted in significant changes in the strength of BOD and COD discharge above their permit levels of 250 mg/l for BOD and 750 mg/l for COD.

During the period between June 30, 2010 and February 2013, the IPP issued 15 different NOV's for violating their permit limit of silver and cyanide.

The City negotiated a Consent Agreement (CA) and it was signed by both parties on June 14, 2013.

The CA calls for the following:

- That Technic will pay the City for the costs associated with treating the excess concentration and loads of BOD and COD including the increased cost of chemical and electric usage. Per the terms of the CA, Technic has paid the sum of \$728,054.45 for the period from April 2010 to March 2013. In addition Technic has agreed to pay, on monthly basis, the cost of treating their excess of BOD/COD
- Technic has paid the City the sum of \$145,100.00 to settle all pending silver violations and penalties.
- The City waived the payments and penalties for violations of cyanide based on the fact the Technic does not use cyanide in their process. Technic has agreed to conduct an engineering study to determine if cyanide detected in their sample is due to false positives due to chemical reactions during the preparation of samples for analysis.
- The City is currently negotiating an additional CA with Technic to install pretreatment equipment to meet the silver and BOD/COD limits. Once an agreement is reached, the City will seek RIDEM approval of the agreement prior to signing such agreement.

The following is a copy of the CA which was signed on June 14, 2013.

CITY OF WOONSOCKET STATE OF RHODE ISLAND DEPARTMENT OF PUBLIC WORKS

IN RE: TECHNIC INC. PRETREATMENT VIOLATIONS

CONSENT AGREEMENT

This Consent Agreement (the "<u>Agreement</u>") is entered into by and between Technic Inc. ("<u>Technic</u>") and the City of Woonsocket, acting through the Director of the Department of Public Works (the "<u>City</u>"), which is responsible for the operation of the Woonsocket Wastewater Treatment Facility, (the "<u>Facility</u>"), in Woonsocket, Rhode Island. Technic operates a manufacturing plant in the City located at 300 Park East Drive and discharges wastewater from its operations to the Facility under an Industrial Pretreatment Permit (# 1012). This Agreement is entered into in accordance with Chapters 46-12 of the Rhode Island General Laws ("<u>R.I.G.L.</u>") and the City's Sewer Use Ordinance (Article III, Section 18-26).

The following Notices of Violation have been issued to Technic by the City for the discharge to the City Facility of certain contaminants exceeding discharge limits prescribed in the City's Sewer Use Ordinance and industrial pretreatment program:

008/13	dated 12/10/2012 - silver
008/13	dated 12/18/2012 - cyanide
009/13	dated $2/18/13 - silver$

Technic has responded in writing to each such Notice of Violation by contesting the violation and requesting a hearing before the City's Director of Public Works.

In addition, Technic's production has resulted in significant changes to its discharge characterized by substantial loads and concentrations of Biological Oxygen Demand ("<u>BOD</u>"), Chemical Oxygen Demand ("<u>COD</u>"), Ammonia and Nitrogen ("<u>TKN</u>") (collectively, the "<u>Constituents</u>"), which have impacted the Facility's ability to treat the Constituents and have resulted in substantial increases in costs to the City for treatment of the Constituents at the Facility. The City has issued Administrative Compliance Orders to Technic requiring Technic to develop and implement pretreatment technology to reduce the concentrations and loads of the Constituents to permit limits.

In lieu of convening an Administrative Hearing regarding the disputed Notices of Violation concerning cyanide and silver and excess loads and concentrations of certain Constituents and in order to affect a resolution of all disputed issues between the City and Technic, the parties agree as follows:

- Technic is subject to the provisions of Chapter 46-12 of the R.I.G.L., the City Sewer Use Ordinance and the City's Industrial Pretreatment Program for purposes of this Agreement.
- 2. The City has jurisdiction over the subject matter of this Agreement and has personal jurisdiction over the Technic for purposes of this Agreement.
- 3. The provisions of this Agreement shall apply to and be binding upon Technic, its agents, servants, employees, successors and assigns, and all persons, firms and corporations acting under, through and for it.

- 4. The compliance with the terms of this Agreement does not relieve Technic from compliance with any applicable laws, ordinances or regulations administered by the City or any other governmental entity.
- 5. This Agreement shall have the full force and effect of a final administrative adjudication, shall be deemed a final administrative decision under the Administrative Procedures Act (R.I.G.L. Chapter 42-34) and shall be fully enforceable in the Superior Court of the State of Rhode Island.
- 6. Upon execution of this Consent Agreement, Technic shall pay the City for costs of treating excess concentrations and loads of BOD and COD, including cost for chemical treatment and electric power, in the amount of \$728,054.45 for the period April, 2010 through March, 2013.
- 7. Upon execution of this Consent Agreement, Technic shall pay the City for penalties incurred for violations of the limits for silver detailed above in the amount of \$145,100.00.
- 8. The City shall waive the payment of penalties for the cyanide violations cited herein, provided that Technic shall submit to the City, within six (6) months of the City's final approval of this Agreement, an engineering report by an independent consulting engineer or in-house (Cranston based) engineer acceptable to the City detailing its analysis of the cause or source of cyanide results in samples of Technic's wastewater flow and concluding that the cause or source of cyanide in such flow is due to other causes, such as false positives or masking of cyanide in laboratory analysis, and is not used or produced by Technic in its manufacturing operations. Said engineering report

shall be subject to the review and approval of the City and RIDEM. Further, Technic agrees, as a condition of this Agreement and any IP Permits issued to Technic by the City, that it will not use or produce cyanide in its manufacturing processes and within twenty (20) days of the City's final approval of this Agreement, Technic, through an authorized officer of the company, shall certify to the City in writing that Technic will not use or produce cyanide in its manufacturing processes.

(\$25,500.00).

NOTICE OF RIGHT TO HEARING

Under the provisions of Chapter 379 of the Public Laws of Rhode Island, January Session, 1984, Chapter 144 of the Public Laws of Rhode Island, January Session, 1990, Section 45-6-23, and Chapter 46-12 of the General Laws of Rhode Island, 1956 (1988 reenactment) as amended; and Chapter 42-35 of the General Laws of Rhode Island, 1956 (1988 reenactment), as amended, and of the Sewer Ordinance, you are entitled to a hearing to show cause why you should not be found in violation of the Sewer Ordinance and why the Order should not stand. You must request such a hearing in writing within ten (10) days of receipt of this Notice. Your request should state the grounds on which you contest the findings of violation and the provisions of the Order.

The hearing will be conducted in accordance with the provisions contained in Chapter 379 of the Public Laws and in the Sewer Ordinance for the conduct of hearings. If you fail to request a hearing within the time provided, this Notice and Order will automatically take effect and your failure to request a hearing will constitute an admission of all facts alleged in Notice of Violation and Order and a waiver of your right to a hearing on the factual allegations and provisions in the Notice of Violation and Order.

FAILURE OR INABILITY THEREAFTER TO COMPLY WITH THIS ORDER WILL RESULT IN THE CITY OF WOONSOCKET PETITIONING THE SUPERIOR COURT FOR ENFORCEMENT OF THIS ORDER.

FAILURE TO COMPLY WITH THE PROVISIONS OF THE SEWER USE ORDINANCE, THE WASTEWATER DISCHARGE PERMIT, OR THE NOTICE OF VIOLATIONS AND ORDER SHALL SUBJECT THE VIOLATOR TO CIVIL PENALTIES OF UP TO \$25,000.00 AND/OR CRIMINAL PENALTIES OF UP TO \$25,000.00 AND/OR THIRTY DAYS IMPRISONMENT FOR EACH DAY DURING WHICH SUCH VIOLATION SHALL BE REPEATED OR CONTINUED.

The issuance of this Notice of Violation and Order does not preclude the City of Woonsocket from taking additional enforcement action seeking or revoking the Company's Permit to discharge wastewater to the Woonsocket Regional Wastewater Treatment Facility.

D. SIGNIFICANT NON-COMPLIANCE PUBLICATION

This section contains the copy of this publication in the Woonsocket Call on August 15, 2013 of those industries that were determined, in accordance with Part C.7(1) of Woonsocket's permit, to be in significant non-compliance, received a Notice of Violation/Administrative Order, or other violation as described in the notice. This also meets the requirements of 40 CFR 403.8(f)(2)(vii).

This section also includes a copy of the required affidavit of publication.

PRETREATMENT ANNUAL REPORT FOR 2013

CITY OF WOONSOCKET PRETREATMENT DIVISION PUBLIC NOTICE - LIST OF VIOLATORS From July 1, 2012 – June 30, 2013

The United Environmental Protection Agency regulation 40 CFR 403.8(f)(2)(viii), the City of Woonsocket Sewer Use Ordinance and the Woonsocket Pretreatment Division policy require the Division to publish annually the names of all industrial users which, at any time during the previous twelve months, were in Significant Non-Compliance (SNC) with pretreatment standards and other pretreatment requirements during the preceding twelve months. Industrial users deemed to be in Significant Non-Compliance SNC) are users that have;

A. Chronic violations of wastewater discharge limits, defined here as those in which 66% or more of all the measurements taken for the same pollutant parameter during a six month period exceed (by any magnitude) a numeric pretreatment standard or requirement, including instantaneous limits, as defined by 40 CFR 403.3(1);

B. Technical Review Criteria (TRC) violations, defined here as those in which 33% or more of all of the measurements taken for the same pollutant parameter during a six month period equal or exceed the product of the numeric pretreatment standard or requirement including instantaneous limits, as defined by 40 CFR 403.3(1) multiplied by the applicable TRC (TRC=1.4 for fats, oil and grease, and 1.2 for all other pollutants except pH);

C. Any other violation of a pretreatment standard or requirement as defined by 40 CFR 403.3(1) (daily maximum, longterm average, instantaneous limit, or narrative standard) that the POTW determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public.

D. Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment or has resulted in the POTW's exercise of it emergency authority under paragraph (f)(1)(vi)(B) of this section to halt or prevent such a discharge;

E. Failure to meet, within 90 days after the schedule date, a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance;
 F. Failure to provide, within 30 days after the due date, required reports such as baseline monitoring reports, 90-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules;

G. Failure to accurately report non-compliance;

H. Any other violation or group of violations, which may include a violation of Best Management Practices, which the POTW determines will adversely affect the operation or implementation of the local Pretreatment program.

Any Industrial User that has received a Notice of Violation/Administrative Order shall also have their name published.

The parameters for which a company was not in compliance and or the specific administrative deficiency are listed after the company name. The numbers in parentheses correspond to the type of violation listed above.

Many of the companies listed have made significant progress toward meeting the standards and may now be in compliance.

H. PUBLIC PARTICIPATION

The Woonsocket Industrial Pretreatment Program is as a matter of policy always open and available to meet with any industrial user or member of the public to discuss any concern regarding pretreatment that they might have.

It is also the policy of the Division to refer industrial users who would benefit from technical assistance to RIDEM's Office of Environmental Coordination.

Recently the City of Woonsocket Wastewater Division launched its own web page, which has a section for Pretreatment. In this section it explains the purpose of pretreatment. The public can also download the SUO and permit applications as well as review the Pretreatment rates.

Annual reports for 2010, 2011 and 2012 are available to the public review or download

In addition, the webpage has a links to the U.S.EPA website as well as RIDEM website.

I. PROGRAM EVALUATION

The Woonsocket Regional Wastewater Commission's Industrial Pretreatment Program (IPP) continues to perform its function is an effective and efficient fashion.

The IPP received adequate funding for this reporting period. No activity was curtailed due to inadequate funding.

Violations of program requirements were detected and previously described enforcement actions were taken as per the Enforcement Response Guide.

There were ten notices of violation enforcement actions this reporting period and \$286,800 in fines was issued. Technic has signed with the City Consent Agreement and paid the City the sum \$873,154.45 to settle the cost of treating excess load of BOD/COD and all silver violation from April 2010.

The City currently negotiated second Consent Agreement with Technic to install new pretreatment equipment to meet the new proposed limits for BOD/COD and silver.

The IPP also collected \$4,100 Stone System of New England, LLC for unlawful discharge process wastewater.

IPP has issued permits to all restaurants in Woonsocket, North Smithfield, Blackstone and Bellingham. This is part of the City's effort to reduce the impact of FOG on the sewer collection system as part of the City's plan to reduce SSO.

The IPP is working closely with Under Ground Asset Management (UGAM) contractor to reinspect restaurants discharge to segment of sewer where grease was found in large quantities. Some restaurants were put on monthly inspection to insure proper operation of their grease traps

J. PROGRAM MODIFICATION EVALUATION

The City has evaluating the local limits according to EPA procedure and a report was submitted to RIDEM. The City is in the process to address all RIDEM comments shortly.

Upon the approval of local limits by RIDEM all SIU permits will be modified to reflect the new limits. It is excepted that this process will be completed by the end of 2013

K. INTERFERENCE AND PASS THROUGH

The IPP continues to work with our contractor, Veolia Water NA, on the ongoing I & I study and reduction of FOG.

The City is operating under the terms of an administrative order imposed by the US EPA. As part of that order the IPP has completed permitting food service establishments within our area of jurisdiction. As part of that effort, the IPP has issued 157 permits to restaurants located within our service area of jurisdiction.

L. POLLUTANT ANALYSIS SUMMARY

Composite samples are collected of the raw Influent and final effluent are collected three time a week as per permit requirement and monthly average data for heavy metals summarized in the following tables. The graphs included compare plant effluent to plant permit limits
