Robert DiSaia, Sanitary Engineer
Rhode Island Department of Environmental Management
Division of Water Resources
Watersheds & Standards Section
235 Promenade Street
Providence, R.I. 02908-5767

Dear Mr. DiSaia:

Please find enclosed, the 2019 Annual Report of the Woonsocket Pretreatment Division. This report covers the IPP activity for the period from July 1, 2018 through June 30, 2019. It summarizes the monitoring and enforcement of the industries and restaurants permitted under the program.

If you have any questions, please feel free to contact me at my office at (401) 766-0555 ext 5211.

Sincerely yours,

Reney Ann Mondoux
Deputy Supt. for Enforcement

INTRODUCTION

The City of Woonsocket maintains an Industrial Pretreatment Program (IPP) for the Woonsocket Regional Wastewater Facility. It is administered by the Woonsocket Industrial Pretreatment Division. The City's RIPDES Permit for operation of the wastewater treatment facility requires the submittal of an annual report for the IPP. This report documents and presents a summary of all activities for the reporting period of July 1, 2018 to June 30, 2019.

As shown in the following report, all industrial users and restaurants in the sewer service area have active pretreatment permits and are monitored and regulated accordingly. There were only three significant violations in the reporting period. The pretreatment program continues to be very effective and successful.

A. INDUSTRIAL USER SURVEY

This section includes six lists as follows:

1. Newly permitted Industrial Users
2. Newly permitted restaurants
3. Industrial Users that have closed or no longer require a permit
4. Restaurants that have closed or no longer require a permit
5. All Industrial Users with an active permit
 - a. Permit numbers in the 1000 range are categorical significant industrial users
 - b. The 2000 and 3000 ranges are significant industrial users
 - c. The 4000 and 5000 ranges are dry industries
 - d. The 8000 range are hospital and medical facilities
6. All Restaurants or food preparers have active permits with numbers in the 9000 range

B. CHANGE NOTIFICATIONS

There were no substantial changes in the volume or character of pollutant loading to the POTW as compared to the last reporting period.

There was no change in the approved local limits for this reporting period.

All users have active permits, as required.

C. COMPLIANCE STATUS OF ALL SIGNIFICANT INDUSTRIAL USERS

All Significant Industrial Users (SIUs) were evaluated for Significant Non-Compliance (SNC) using rolling six-month periods as follows:

- April 1 to September 30
- July 1 to December 31
- October 1 to March 31
- January 1 to June 30

The following are the evaluations for each SIU.

All parameters that are abbreviated in capital letters are in pounds/day (mass limits).

All parameters that are spelled out in upper- and lower-case letters are in milligrams/liter (concentration limits).

Also included in this section are details of all notices of violation issued during this reporting year.

The IPP issued surcharges to every SIU that exceeded permit limits of BOD/COD and TSS.

All SIUs that show a violation for concentration were still within their mass limits.

At the end of this section are the Notices of Deficiency (NOD) and Notices of Violation (NOV) issued by the division and the response letters from the IUs. The City has been collaborating with an engineering consultant and outside counsel to work with Technic, Inc. to settle the NOV issued to them. Technic has been cooperative in responding to the NOV with efforts to ensure future full compliance. A resolution of the NOV and associated fines will be negotiated soon.

April 1 to September 30

TECHNIC,INC.

Violation Type	Date of NC	Violation Description	Date In Compliance	Enforcement Type	Date of Enforcement	Enforcement	Penalty
NC-P	17-Jul-18	EXCEEDING THE DAILY LIMIT FOR CYANIDE OF 1.20 MG/L ON JULY 17,2018, THE ANALYTICAL RESULT WS 1.40 MG/L. SAMPLING DONE BY TECHNIC.					
				WF	15-Aug-18	Written notification of violation (NOV) and fine.	\$2,100.00
NC-P	31-Oct-18	EXCEEDING THE DAILY LIMIT FOR CYANIDE OF 1.20 MG/L ON 10/31/18, THE ANALYTICAL RESULT WAS 1.50 MG/L. SAMPLING WAS DONE BY TECHNIC.					
				WF	16-Nov-18	Written notification of violation (NOV) and fine.	\$3,100.00
NC-P	13-Dec-18	EXCEEDENCE OF COPPER ON 11/8/18 SAMPLED BY CITY. LIMIT IS 3.38 MG/L . ANALYTICAL RESULTS ARE 6.77 MG/L..					
				WF	13-Dec-18	Written notification of violation (NOV) and fine.	\$5,100.00

D. SIGNIFICANT NON-COMPLIANCE PUBLICATION

In accordance with Part 1.C.7(d) of the City of Woonsocket's RIPDES permit, the names of any industries found to be in significant non-compliance, that have received a Notice of Violation/Administrative Order or have committed any other violation must be published in a notice in the local paper of record along with details of those violations. This also meets the requirements of 40 CFR 403.8(f)(2)(vii).

Three Notices of Violation were issued to Technic, Inc. during this reporting period. The following advertisement was published in the Woonsocket Call on August 25, 2019 in accordance with the permit requirement.

**CITY OF WOONSOCKET
PRETREATMENT DIVISION
PUBLIC NOTICE - LIST OF VIOLATORS
From July 1, 2018 – June 30, 2019**

The United States Environmental Protection Agency regulation 40 CFR 403.8(f)(2)(viii), the City of Woonsocket Sewer Use Ordinance and the Woonsocket Pretreatment Division policy require the Division to publish annually the name of all industrial users which, at any time during the previous twelve months, were in Significant Non-Compliance (SNC) with pretreatment standards and other pretreatment requirements. Industrial users deemed to be in Significant Non-Compliance (SNC) are users that have;

- A. Chronic violations of wastewater discharge limits, defined here as those in which 66% or more of all the measurements taken for the same pollutant parameter during a six month period exceed (by any magnitude) a numeric pretreatment standard or requirement, including instantaneous limits, as defined by 40 CFR 403.3(l);
- B. Technical Review Criteria (TRC) violations, defined here as those in which 33% or more of all of the measurements taken for the same pollutant parameter during a six month period equal or exceed the product of the numeric pretreatment standard or requirement including instantaneous limits, as defined by 40 CFR 403.3(l) multiplied by the applicable TRC (TRC=1.4 for fats, oil and grease, and 1.2 for all other pollutants except pH);
- C. Any other violation of a pretreatment standard or requirement as defined by 40 CFR 403.3(l) (daily maximum, long-term average, instantaneous limit, or narrative standard) that the POTW determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public.
- D. Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment or has resulted in the POTW's exercise of its emergency authority under paragraph (f)(1)(vi)(B) of this section to halt or prevent such a discharge;
- E. Failure to meet, within 90 days after the schedule date, a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance;
- F. Failure to provide, within 30 days after the due date, required reports such as baseline monitoring reports, 90-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules;
- G. Failure to accurately report non-compliance;
- H. Any other violation or group of violations, which may include a violation of Best Management Practices, which the POTW determines will adversely affect the operation or implementation of the local Pretreatment program.

Any Industrial User that has received a Notice of Violation/Administrative Order shall also have their name published.

The parameters for which a company was not in compliance and or the specific administrative deficiency are listed after the company name. The letters in parentheses correspond to the type of violation listed above.

Many of the companies listed have made significant progress toward meeting the standards and may now be in compliance.

<u>Company Name</u>	<u>Violation Cited</u>	<u>Action by Pretreatment</u>
Technic, Inc.	Violation of Cyanide (C) for the Month of July, 2018	Violation Notice/Fine issued
Technic, Inc.	Violation of Cyanide (C) for the Month of October, 2018	Violation Notice/Fine issued
Technic, Inc.	Violation of Copper (C) for the Month of November, 2018	Violation Notice/Fine issued

Reney Ann Mondoux
Deputy Superintendent for Enforcement

E. INSPECTION AND MONITORING ACTIVITY

This section describes all inspection and sampling activities conducted by the Pretreatment Division personnel for all SIUs. Semi-annual inspections and sampling are conducted on Significant Industrial Users and annual inspections are conducted on non-significant users and do not involve sampling.

Restaurant permits are issued for a period of three years and each restaurant is inspected a minimum of once during the life of the permit. During this reporting year, 50 or more restaurants were inspected.

Significant Industrial User Self-Monitoring Activity is also described in this section. Please note that the event category Generic – SMCR indicates the date when the report was due and received.

At the end of this section is a summary of inspections conducted this year of dental offices in the collection area.

09-04-2018	08-01-2018		PERMIT - RENEWAL	A Permit Renewal

* "V" indicates the event has a violation. "L" indicates the event was late.

G. NOTIFICATION REPORTS

The following list indicates the due dates and receiving dates of self-monitoring reports (SMRs) from all SIUs.

A Notice of Deficiency (NOD) was issued to any user that submitted their self-monitoring report after the due date. All NOD require a written response from the user. A copy of all NOD documentation can be found in Section C.

H. PUBLIC PARTICIPATION

The Woonsocket Industrial Pretreatment Program is always open and available to meet with any industrial user or member of the public to discuss any concern regarding pretreatment. It is also the policy of the Division to refer industrial users who would benefit from technical assistance to RIDEM's Office of Environmental Coordination.

The City of Woonsocket Wastewater Division also manages its own web page, which has a section for Pretreatment. This section explains the purpose of pretreatment and monitoring and enforcement activities. The public can download the Sewer Use Ordinance and permit applications as well as review the pretreatment fee rates. Annual pretreatment reports are available for the past five years. In addition, links to the EPA and RIDEM websites are provided.

I. PROGRAM EVALUATION

The City of Woonsocket's Industrial Pretreatment Program (IPP) continues to perform its function in an effective and efficient fashion. The City is committed to providing adequate funding and staffing to maintain the effectiveness of the program and current levels have been sufficient. No changes appear to be necessary or are proposed.

Violations of program requirements were detected, and previously described enforcement actions were taken as per the Enforcement Response Guide. Enforcement response has proven to be effective in reducing SNC. The program will continue to enforce its regulations per the ERG.

The Woonsocket Sewer Use Ordinance has been sufficient to provide for effective use of the collection system and proper operation of the POTW. All changes to the SUO must be approved by regulators and the City Council. In the next reporting period, the SUO will be reviewed and updated if necessary.

The IPP has issued permits to all restaurants in Woonsocket, North Smithfield, Blackstone, and Bellingham. This is part of the City's effort to reduce the impact of FOG on the sewer collection system as part of the City's plan to reduce SSO. If excessive FOG is found during collection system cleaning, the IPP visits all neighboring restaurants to review their FOG control procedures.

J. PROGRAM MODIFICATION EVALUATION

The City evaluated the local limits according to EPA procedure and a report was submitted to RIDEM in November 2013. Once the new local limits were approved by RIDEM, all SIU permits were modified to reflect the new limits and revised permits were sent to all users. The City is planning to re-evaluate and possibly revise its local limits in the next reporting period as part of a 5-year cycle. Once that occurs, new permit modifications may be necessary.

K. INTERFERENCE AND PASS THROUGH

The City continues to monitor and investigate incidences of high levels of different constituents in the treatment plant influent, particularly ammonia. Real-time influent ammonia levels continued to spike at various times during the reporting period. Since early spring 2019 these fluctuations in the detected ammonia levels have tapered off and stabilized. The City will remain diligent in monitoring all data.

The City is operating the collection system under the terms of an administrative order imposed by the US EPA. As part of that order, the IPP has completed permitting of all food service establishments within our service area. The IPP continues to work with sewer O&M contractor, Veolia, on the reduction of FOG and SSO. These efforts have been highly effective to date.

L. POLLUTANT ANALYSIS SUMMARY

Composite samples are collected of the final effluent at the WWTP, as listed below, per permit requirements. The monthly average data for heavy metals is summarized in the following tables. The graphs compare plant effluent to plant permit limits.

BOD, CBOD, TSS	Three per week (CBOD after 1/1/18, No BOD)
Metals (Pb, Cu, Se)	Two per week (Se added on 1/1/18)
Oil & Grease	Once per month
Phosphorous	Three per week
Ammonia	Three per week May – October Weekly November – April
Nitrogen (T)	Three per week May – October Weekly November - April

M. ANNUAL PRETREATMENT REPORT SUMMARY SHEET

EPA Region 1 Annual Pretreatment Report Summary Sheet FY 2018-2019

POTW Name: Woonsocket Regional Wastewater Commission
