Subject: February 2020 Odor Report

Dear Councilors,

There were four (4) odor complaints filed with the Woonsocket Regional Wastewater Treatment Facility during the month of February 2020.

I've attached graphs of monthly odor complaints received since January of 2016 and yearly complaints received since 2008. I've also attached the monthly odor complaint log which outlines the details of the complaints as well as the possible or potential root causes.

If you have any questions or require additional information, please call me at 401.356.1468.

Respectfully,

Re: Petition from Verizon and National Grid

Dear Councilors,

On the docket for this evening is a petition from Verizon and National Grid. They have requested permission to erect and maintain a new pole, guy wire and anchor on Hamlet Avenue in the City of Woonsocket.

They have also requested permission to connect and maintain any wires and fixtures, as needed, to aforementioned poles.

The Engineering Division has reviewed the plan and they have found it to be acceptable.

Respectfully,

Steven D'Agostino

Status Report No. 26

City of Woonsocket - Drinking Water Treatment Facility Capital Improvements Project

Date: March 24, 2020

Prepared by: CDM Smith

On July 31, 2017 the City of Woonsocket, Rhode Island ("City") entered in to an Agreement with Woonsocket Water Services, LLC ("Company"); note that, during the proposal review process, the "Company" was also referred to as "the AECOM Team". The Agreement is for the Company to design, construct and operate a new water treatment facility with a design capacity of 7.0 million gallons per day, expandable to 10.5 million gallons per day, on the City-owned property on Jillson Avenue. Construction is to be complete and the facility fully operational no later than December 31, 2020.

Status Report No. 26 details the work completed from February 24, 2020 through March 23, 2020.

PROJECT SCHEDULE

All design packages have been delivered to the City and stamped by RIDOH, which completes the design phase of the project. The City has issued to the Company a full notice to proceed with construction of Capital Improvements. It is anticipated the new water treatment plant will be fully operational on December 31, 2020.

PROJECT BUDGET

Original Contract Sum	\$ 56,752,800.00
Total Change Orders	\$ 159,033.00
Current Contract Sum	\$ 56,911,833.00
 Total Paid to Date	 \$ 35,831,400.52
Current Retainage	\$ 1,769,199.29
Current Payment Under Review	\$ 4,295,371.28

PROJECT CHANGE ORDERS

PROPOSED

PCO No 9 - PCB and PAH Remediation: Work under Change Order No 2 has been completed. Confirmatory soil samples indicated additional remediation work will be required. The Company is proposing a fixed Engineering Services cost of \$9,574 plus the cost of excavation, disposal, sampling and lab costs associated with the removal of contaminated material within the defined area at a unit cost of \$106.80 per ton. WWS has completed the additional excavation and disposal of the contaminated soils along the WTP access road. A final change order for this work will be developed.

FUTURE

Sick Leave Act - A new law passed in the State of Rhode Island regulating the minimum sick leave time employees in the State must receive. WWS has evaluated the act and estimated the cost impacts it may have on the project. This is under review.

EXECUTED

Change Order No. 1 – PCB and PAH Notification and Delineation: \$41,868.00

This change order covered the compensation for the Preparation/review of Notification to RIDEM and resulting RIDEM response and conduct the required site delineation of the PCB and PAH contamination to determine the extent of excavation required along the facility's primary access road.

Change Order No. 2 – PCB and PAH Remediation: \$114,919.00

Field work to further delineate the PCB and PAH contamination along the facility's primary access road was completed (CO-01). Lab results showed reportable levels of PCB were found to a depth of 3-feet, while PAH contamination were found to a depth of 6-feet. The Company has proposed Change Order No 2 (CO-02) to "Dig and Haul" contaminated soil off-site, conduct confirmatory sampling, development of reports and management activities during excavation for a total cost of \$114,919.00. If confirmatory samples show additional remediation is required a proposed change order would be developed.

Change Order No 3 – Excavation/Removal Hazardous Materials: \$100.70/Ton (Time & Material) Covers handling of hazardous materials while installing new water mains along Joffre Ave, Acres Ave, Reservoir Ave and Manville Rd. Company will only be compensated for material removed for disposal at a rate of \$100.70 per ton.

Change Order No 4 – Raw/Finished Piping Modifications: \$202,988.00 (CREDIT)

Company is deleting from the design ~620 linear feet of 24" ductile iron water main. The finished water main runs from the intersection of Acres Ave and Reservoir Ave to Joffre Ave and Logee St. The Company had proposed deleting ~450 linear feet of 24" ductile iron main between Manville Road and Lydia Avenue. However, deleting the ~450 linear feet of 24" ductile iron main would have meant transmission of raw water through an existing 100 year old main and the loss of redundancy.

Change Order No 5 – Interior Process Piping Material Change: \$129,600 (CREDIT)

Company will credit \$129,600 by installing epoxy line carbon steel pipe in lieu of ductile iron pipe within all facilities. This includes piping within the WTP, Raw Water Pump Station and Finish Water Pump Station.

Change Order No 6: National Grid Natural Gas Service: \$66,239

National grid has provided an invoice totaling \$114,740 to complete the installation of new gas main and gas service required at the new treatment facility. A utility allowance of \$50,000 was placed into the construction contract. CO No 6 will cover the remaining balance plus bond and insurance increases incurred by WWS.

Change Order No 7 - Natural Gas Booster Station: The Company has provided a change order of \$108,000 to design and construct a gas booster station required to operate HVAC equipment at the treatment plant due to low line pressures in the distribution system. Design details have been coordinated between WWS and National Grid.

Change Order No. 8 - 30" Line Stop: The Company has provided a change order of \$80,430 to furnish and install a line stop in order to connect the new raw water line to the existing pipe network. During pressure testing it was discovered the existing line valves did not provide the required isolation to enable this connection to be made. It has been determined a line stop is required in order to connect the new raw water main into the existing pipe network.

Change Order No. 9 – Manville Road Full Width Paving: At the request of the City, the Company has provided a change order of \$80,175 to provide full width curb to curb paving in all disturbed areas of Manville Road. The agreement originally called for only disturbed areas to be paved.

PROJECT SUBMITTALS

- All design packages have been approved for construction.

PROJECT PERMITTING

- All RIDEM and RIDOH permitting activities have been completed for the project.

FIELD WORK/CONSTRUCTION ACTIVITIES

- Began metal stud walls in the WTP lab and control room

Water Treatment Plant

DESIGN-BUILD-OPERATE PROJECT UPDATE

WOONSOCKET WATER SERVICES, LLC

Water Treatment Plant Timeline

Project Introduction. The City of Woonsocket, Rhode Island issued a request for proposals (RFP) in August 2015 for the design and construction of a new water treatment facility. Woonsocket Water Services, LLC, (WWS) a team comprised of AECOM, C.H. Nickerson, and Suez, submitted a proposal in February 2016 for the design-build-operate project and was awarded the project in July 2017. The project is currently in the construction phase.

Design. Once the contract was signed, the project was kicked off with the City in August 2017 with the initiation of design packages and permitting with local and state regulatory agencies. The design packages consist of the following packages: Package 1 - Early Site Work; Package 2 - Raw Water Pumping Station, connecting pipelines, and structural foundations of the Water Treatment Plant; and Package 3 - Water Treatment Plant.

RIDOH approved Package 1 on May 30, 2018; Package 2 on July 20, 2018; and Package 3 on September 28, 2018. All packages have been stamped and approved by RIDOH, which completes the design phase of the project.

Permitting. All RIDEM and RIDOH permitting activities have been completed for the project. The RIDOH participates in monthly progress review meetings with the project team and the City and will continue to participate and monitor the project throughout construction and startup. Representatives from the RIDEM make period site visits to the WTP site to conduct site inspections related to construction storm water controls.

RIDEM approved a permit modification to the original Freshwater Wetlands permit on June 7th, 2019. The permit modification request modifies the amount of off-site compensation that would be provided, to include the impervious area that will be created with the sidewalk improvements on Jillson Avenue and the extension of Acres Avenue to the new Secondary Access Road from the new WTP.

Construction. In March, the following activities were conducted:

Water Treatment Plant:

- a. Completed CMU walls WTP Building
- b. Began metal stud walls in the WTP lab and control room
- c. Completed installation of 8" water line
- d. Continued natural gas piping in the treatment building
- e. Continued installation of HVAC equipment in the treatment building
- f. Continued installation of 24" raw water and finished water yard piping running up the hill to the Water Treatment Plant
- g. Continued electrical cable tray installation in treatment building/admin building
- h. Continued DAF equipment installation
- i. Installed Filter wash water troughs
- j. Continued painting activities inside treatment/admin building
- k. Completed installation of slide gates at CCT

Raw Water Pump Station:

- a. Installed electric conduit and suction piping
- b. Completed backfilling to grade
- c. Placed concrete floor slab

Upcoming Activities (3 Month Look Ahead)

- Continue review of construction submittals
- Continue installation of 24" raw water and finished water lines
- Continue installation natural gas piping
- Continue installation of electrical conduit
- Begin wiring for panels and electrical equipment
- Continue DAF system equipment installation
- Place wall panels at the RWPS
- Continue painting inside treatment building/admin building
- Continue installation of HVAC equipment/plumbing fixtures at treatment/admin building
- Continue installation of fire suppression system at treatment/admin building

Subject: March 2020 Odor Report

Dear Councilors,

There were five (5) odor complaints filed with the Woonsocket Regional Wastewater Treatment Facility during the month of March 2020.

I've attached graphs of monthly odor complaints received since January of 2016 and yearly complaints received since 2008. I've also attached the monthly odor complaint log which outlines the details of the complaints as well as the possible or potential root causes.

If you have any questions or require additional information, please call me at 401.356.1468.

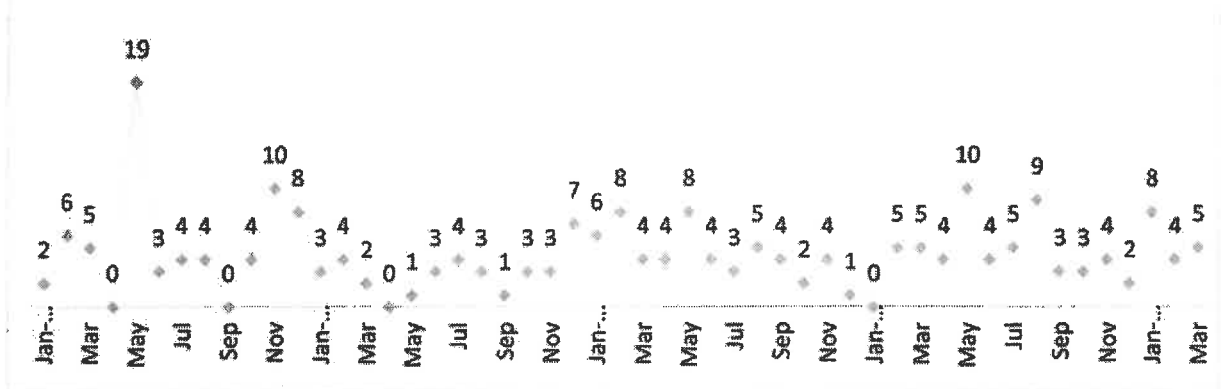

Respectfully,

Ordinance

Chapter

AMENDING THE CODE OF ORDINANCES, CITY OF WOONSOCKET, RHODE ISLAND, ENTITLED "ALCOHOLIC BEVERAGES", CHAPTER 3, SECTION 3.5.(c)

WHEREAS, the City has had experiences wherein the need to immediately address public safety issues has arisen; and

WHEREAS, the Public Safety Division has recommended changes to Chapter 3 of the Code of Ordinances "Alcoholic Beverages" of the City of Woonsocket for more clarification.

IT IS ORDAINED BY THE CITY COUNCIL OF THE CITY OF WOONSOCKET AS FOLLOWS:

SECTION 1. Entitled "Alcoholic Beverages" is hereby amended by adding (1) as follows:

Sec. 3-5. Board of Commissioners Established.

(c) Issuance and revocation of licenses. The board shall have the authority to approve, issue, renew, transfer, suspend or revoke any or all alcoholic beverages licenses under its control within the city and may also from time to time reduce or increase the number of any class of licenses in each category as shall be authorized and empowered by state law.

(1) Unless otherwise provided by state law, suspend, annul, rescind, cancel or revoke any license issued by the board of licenses for any reason which the board may deem to be in the public interest; provided, however, that no license shall be suspended for more than seventy-two (72) hours or annulled,

rescinded, cancelled or revoked unless the licensee shall have been given at least three (3) days' written notice of the action proposed to be taken and of the grounds therefor and the time and place of the hearing. The said licensee shall also be notified of the right to be represented at said hearing by legal counsel.

SECTION 2. This Ordinance shall be enacted in accordance with the provisions of Sections 45-24-27 and 45-24-72 of the Rhode Island General Laws, and amended, and shall take effect on the eleventh consecutive day following its passage by the City Council as provided in Chapter III, Section 9 of the Woonsocket Home Rule Charter and all Ordinances or parts of Ordinances inconsistent herewith are hereby repealed.

Daniel M. Gendron, City Council President

ORDINANCE ISSUING WAIVER OF COMPOSTING FACILITY FEE

WHEREAS, on January 30, 2020 the World Health Organization designated the novel coronavirus, COVID-19, outbreak as a Public Health Emergency of International Concern; and

WHEREAS, on March 9, 2020 the State of Rhode Island Governor Gina M. Raimondo issued Executive Order 20-02 declaring a state of emergency due to the outbreak of COVID-19; and

WHEREAS, on March 20, 2020 the Woonsocket City Council approved Ordinance E20 O 08 declaring a state of emergency due to the outbreak of COVID-19; and

WHEREAS, on March 23, 2020 the Woonsocket City Council approved Ordinance E20 O 09 declaring that no interest or penalties shall accrue for motor vehicle, tangible, and real estate taxes due on April 15, 2020 until June 1, 2020; and

WHEREAS, on March 23, 2020 the Woonsocket City Council approved Ordinance E20 O 10 recognizing the hardship created due to the outbreak of COVID-19 and ordered the closure of all "close-quarter" businesses and a variety of other businesses; and

WHEREAS, on March 24, 2020 the State of Rhode Island Governor Gina M. Raimondo issued Executive Order 20-14 ordering Rhode Islanders to stay at home due to the outbreak of COVID-19; and

WHEREAS, due to these orders most city residents have remained home and have engaged in home improvement projects, in particular, landscaping, and leaf and brush removal; and

WHEREAS, the use of the City of Woonsocket composting facility requires a twenty-five (\$25) dollar fee and a sticker that needs to be obtained at the Public Works Department inside of City Hall; and

WHEREAS, consistent with efforts to employ social distancing and therefore to limit and reduce social interactions between City Hall employees and the public.

**IT IS ORDAINED BY THE CITY COUNCIL OF THE
CITY OF WOONSOCKET, RHODE ISLAND, AS FOLLOWS:**

SECTION 1. That the Woonsocket City Council hereby declares the existence of an emergency.

SECTION 2. That the payment of the twenty-five (\$25) dollar fee and the requirement of a sticker for the use of the City of Woonsocket composting facility is waived until June 1, 2020.

SECTION 3. This Ordinance shall take effect upon its passage by the City Council as provided in Chapter III, Section 10 of the Woonsocket Home Rule Charter and all ordinances or parts of ordinances inconsistent herewith are hereby repealed.

Subject: **Proposed Abatement**

At the January 30, 2020 Board of Tax Assessment Review meeting, the board voted to reduce the property below.

Property	Parcel	Prior Asmt	New Asmt
285 Main Street	14C-368-007	\$901,800	\$757,200

As a result, the net abatement in the amount of \$5,3766 for the above changes would be applied to the 2018 tax roll and carried forward to the 2019 tax roll. However, please note that to my knowledge, income and expense statements for the building and its current tenants were not supplied to the Board. Pursuant to the Rules and Regulations, as adopted by the Board, section 4.9 states the following: *"With respect to income property, the Board requires the applicant to provide a statement, signed under oath by the preparer and the applicant, of income and expenses from the property for the three years preceding the assessment date being appealed."* I highly advise the Board to require this information and review and consult with the Assessors Office is clarification is needed, prior to applying blanket, non-justified adjustments to properties under appeal. Without having a clear understanding of the income and expenses the property has, a reduction should not be granted.

Sincerely,

Elyse Paré
Acting City Assessor

Subject: **Proposed Abatement**

At the January 30, 2020 Board of Tax Assessment Review meeting, the board voted to reduce the parcel below. The assessments for the following parcels have been reduced as follows:

Property	Parcel	Prior Asmt	New Asmt
0 MENDON RD	50A-004-011	\$367,600	\$250,000

As a result, the net abatement in the amount of \$4,226.54 for the above changes would be applied to the 2019 tax roll. However, to my knowledge, information has not been supplied to the Board to justify a reduction. Pursuant to the Rules and Regulations, as adopted by the Board:

4.8.2 A certified appraisal by a Rhode Island licensed appraiser regarding the value of the property as of the assessment date.

4.8.3 Evidence of comparable sales. Significant factors that affect comparability include location, condition and/or special character of the property, proximity of sale to date of assessment, and property use.

As it currently stands, the property is marketed in excess of \$600k. I am sure the owners have an appraisal in hand, or an opinion of value from a realtor justifying the marketed price. If not, they should have provided comparable sales which would justify a value outside of the assessment of \$367,600. Without such information in hand, and reviewed by the Board, I do not believe a reduction should be granted.

Elyse Paré

Without having a clear understanding of the income and expenses the property has, a reduction should not be granted. The Board heard testimony on the overall % increase on various properties during the revaluation. The fair and equitable assessment, which reflects market value as of December 31st, is not as simple as applying a blanket percent increase. I do not recommend reduction without justified income and expense statements.

Subject: **Proposed Abatement**

At the January 30, 2020 Board of Tax Assessment Review meeting, the board voted to reduce the property below.

Property	Parcel	Prior Asmt	New Asmt
30 ASCENCION ST	14K-090-020	\$602,100	\$232,600

Despite the decision by the Board to reduce the value from \$602,100 to \$232,600, I strongly recommend it is denied by the Council. The assessment of \$602,100 does not exceed the full fair cash value of the property as of 12/31/2018. Previously, the property was receiving an erroneous negative adjustment on the building and as a result as incorrectly assessed at \$230,900 in 2017. Subsequently, the property sold in September of 2018 for \$1,175,000, nearly double the amount of the tax assessment. I would deny this appeal and let the owner pursue their appeal rights through Superior Court. Additionally, pursuant to the Rules and Regulations, as adopted by the Board, section 4.9 states the following: *"With respect to income property, the Board requires the applicant to provide a statement, signed under oath by the preparer and the applicant, of income and expenses from the property for the three years preceding the assessment date being appealed."* I highly advise the Board to require this information and review and consult with the Assessors Office is clarification is needed, prior to applying blanket, non-justified adjustments to properties under appeal. Without having a clear understanding of the income and expenses the property has, a reduction should not be granted.

Sincerely,

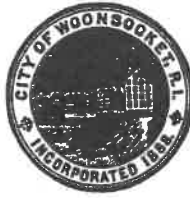

Elyse Paré
Acting City Assessor

Subject: **Proposed Abatement**

At the June 27, 2019 Board of Tax Assessment Review meeting, the board voted to reduce the parcels below. The assessments for the following parcels were to be reduced as follows:

Property	Parcel	Prior Asmt	New Asmt
125 SOUTH MAIN ST	09C-149-002	\$367,600	\$330,480
837 SOCIAL ST	21C-267-018	\$538,600	\$400,000
26 MAIN ST	14K-079-009	\$341,100	\$283,640
320 GROVE ST	23H-031-011	\$581,500	\$512,760
		\$1,828,800	\$1,526,880

As a result, the net abatement in the amount of 10,926.49 for the above changes would be applied to the 2018 tax roll and carried forward to the 2019 in the amount 10,851.06 tax roll. However, to my knowledge no income and expense statements were submitted, I believe the Board's rational was to reduce to previous values- which have no standing for the 12/31/18 assessment. Pursuant to the Rules and Regulations, as adopted by the Board, section 4.9 states the following: *"With respect to income property, the Board requires the applicant to provide a statement, signed under oath by the preparer and the applicant, of income and expenses from the property for the three years preceding the assessment date being appealed."* I highly advise the Board to require this information and review and consult with the Assessors Office is clarification is needed, prior to applying blanket, non-justified adjustments to properties under appeal.
