**AUTHORIZATION TO SELL THE PROPERTY LOCATED
AT 248 PARK AVENUE, WOONSOCKET, RHODE ISLAND**

- WHEREAS,** the City of Woonsocket purchased the property located at 248 Park Avenue, Woonsocket, Rhode Island on December 29, 2016 for Fifteen Thousand Dollars (\$15,000.00) (See Exhibit A attached hereto); and
- WHEREAS,** the structure on this property was subsequently demolished in an effort to advance the City's overall plan of cleaning up blight at the cost of Thirty-Nine Thousand Three Hundred Sixty-Two Dollars (\$39,362.00); and
- WHEREAS,** due to the unique circumstances regarding this property in that it is a small vacant lot, the City Council may circumvent the need to adhere to the strict guidelines contained in City Ordinance 16 O 103; and
- WHEREAS,** the City has an interested buyer who has agreed to pay Seven Thousand Dollars (\$7,000.00) for the same parcel.

**IT IS ORDAINED BY THE CITY COUNCIL OF THE
CITY OF WOONSOCKET AS FOLLOWS:**

- SECTION 1.** The City Council agrees to sell the property located at 248 Park Avenue, Woonsocket, Rhode Island to Pamela A. DiSalvo, who owns an abutting property located at 256 Park Avenue, Woonsocket, Rhode Island for the amount of Seven Thousand Dollars (\$7,000.00).
- SECTION 2.** The City Council authorizes the Mayor and/or her designee to sell the property located at 248 Park Avenue, Woonsocket, Rhode Island for the amount of Seven Thousand Dollars (\$7,000.00) and to execute any and all documents to perform the same including a deed with the stipulation that the parcel could only be used to build a non-dwelling structure and that said parcel is to be administratively merged with the property located at 256 Park Avenue.
- SECTION 3.** The sale of this property is exempt from the strict guidelines contained in City Ordinance 16 O 103 as they are deemed unduly burdensome in this case and would impose an unnecessary financial burden on the City.

SECTION 4. This Ordinance shall take effect on the eleventh consecutive day following its passage by the City Council as provided in Chapter III, Section 9 of the Woonsocket Home Rule Charter and all Ordinances or parts of Ordinances inconsistent herewith are hereby repealed.

CASS PARK MASTER PLAN

WOONSOCKET PLANNING BOARD

Cass Park

MASTER PLAN

CITY OF WOONSOCKET, RHODE ISLAND

November 28, 2017

Introduction / Objectives

Cass Park is one of the oldest parks in Woonsocket. The second Mayor of Woonsocket, Daniel B. Pond (1890-93) showed concern for social betterment. He was an early advocate of a public park system, noting that the large population of the City had no open squares or places for healthful recreation and enjoyment. He argued that parks and public squares were “the breathing places of cities” and presented “quieting influences to restless minds.” Mayor Pond recommended a commission to secure such places of recreation. On April 13, 1891, the City Council authorized the purchase of 103 acres of land for public park purposes at an outlay of \$23,151. The land included 47 acres on Cass Avenue, then named Central Park, later renamed Cass Park, 31 acres off Providence Street, and 25 acres in Cold Spring Grove. Many improvements and upgrades have been undertaken since its inception. As times changed, the needs of the City’s populations and visitors alike also changed. Today, Cass Park is in need of a major makeover, with new facilities to be constructed, and existing areas requiring substantial renovation and/or redesign to meet the contemporary needs of our community. Because of its special landform, mature vegetation, and other natural features, the park possesses tremendous potential for recreation and sports activities.

Cass Park possesses a key location in the City. Surrounded by residential areas, it is also close to the Woonsocket High School, the Landmark Medical Center, an Assisted/Independent Elderly living facility, and Woonsocket Health and Rehab facility. As such, Cass Park provides a much needed open and green recreational and sports space for these institutions, as well as for the population of Woonsocket at large. The park also provides many opportunities for our City to connect with other communities across the State and Region with many activities and events- strengthening our social and cultural ties with many cities, towns and states, and providing a magnificent urban open space for our children, youth and elderly.

The objectives of this plan include

(1) Fully utilize, protect and maintain the natural areas, such as Cass Pond and the vegetative wetlands along the Iron Rock Brook. (2) Take actions that further enhance the natural beauty and rolling wooded landform of this 60 acre park. (3) Provide fields and other attractions so as to encourage the full utilization of the park by the public from early morning to its close at dusk. (4) Ensure that all facilities are planned and located considering access and security, to ensure the safety of Woonsocket residents. (5) Continue to remove existing physical barriers by making sure all areas (where physically practical) are available and have been designed and constructed to be ADA compliant. (6) Provide non-exclusive use by high school students both informally and by team use, and also use by adults, girls and boys of all ages on a City-wide basis. The new Woonsocket High School, built in the early 1970's, was constructed within Cass Park. Unfortunately, the new high school project did not have sufficient land area available to provide the necessary fields for athletic events, but instead such facilities remained inefficiently scattered across the City. Most area and state high schools in contrast have all their athletic fields and facilities clustered around their schools.

Much recent work has been completed in Cass Park. This year alone the City has rebuilt a bridge, providing much needed ADA access within the Park, constructed two new basketball courts and completed repaving and striping of the parking lot at Cass Avenue.

Summary of Significant Proposed Cass Park Improvements

Prepared by the Department of Planning & Development

November 28, 2017

Building upon the recent work completed in Cass Park, we propose a series of projects that will continue to position Cass Park as the leading park in Woonsocket, striving to provide the open recreational spaces and functions that the City direly needs.

(1) Enhancement/Beautification of Cass Pond – Over the years, the appearance of Cass Pond has demonstrated the need for some rehabilitation. Large quantities of silt and debris run into the pond by the flow of the Iron Rock Brook, and are deposited. The bottom of the pond has been substantially raised so that there are only a few inches of stagnant water in the area. Recently, a sandbar of silt has formed, which is above the water level. There is poor flow of water into all areas of the pond, which results in decreased water quality. The proposal is to construct a new large catch basin at the point where the brook flows into the pond to remove the majority of the silt and debris before it flows into the pond. This material would be periodically removed and carted away by the City's Department of Public Works. In addition, it is proposed that a new aeration fountain be constructed in the center of Cass Pond. This fountain would be fed from water piped in from the new water outflow basin. The fountain would shoot water 15-18 feet into the air, falling as spray, helping to remove much of the water's turbidity and foul odors. The new fountain would provide a major visual enhancement to this important area between Cass Park and the Woonsocket High School.

(2) Relocate the Baseball Field for use by the High School Girls Softball Team in place of the Quonset Huts that will be removed. The existing baseball field is utilized by the East Woonsocket Little League as an instructional field. The field does not have adequate room for bleachers and related spatial needs due to the fact that it is at the very base of the steep hillside and there is uncontrolled erosion. The plan is to relocate this field where the Quonset Huts now exist (to be removed). The new facility will be redesigned to provide a state-of-the-art softball field adjacent to the recently renovated Renaud Field. Other improvements such as new bleachers, team areas, fencing, lighting, scoreboard, sound system, landscaping, and other equipment necessary are also proposed.

(3) Install a New Paved Walkway between the track running to the Central Park Area. Currently, there is considerable pedestrian traffic from the track area through Cass Park to the High School. The volume of foot traffic will only increase in future years due to the increased use of the existing track and field facility, and the greater use of the infield of the track for additional athletic fields as discussed later in this project summary. A new 8' wide asphalt pathway (approximately 900' in length) is recommended to be constructed. This walkway would replace the eroded gravel roadway that is currently utilized by the City Parks Department maintenance vehicles.

(4) Restore the Wetlands Area along the Iron Rock Brook. Over the years the City has attempted to encroach on these large vegetative wetlands and cut back vegetation. Approximately 30 years ago, a portion of the wetlands was filled in and a basketball and tennis court was constructed. These courts are currently in disrepair. Because of their lack of visibility and compromised security, these courts should be permanently abandoned and used as the basis of compensatory wetlands. The City may wish to construct an unpaved walkway through the wetlands and along Sylvester's Pond to serve as an educational resource for area schoolchildren.

(5) Enlargement of Parking Area/Removal of Quonset Huts – The three obsolete and unsightly metal Quonset huts were received by the City and erected during World War II. For the past several years, Woonsocket Head Start has occupied two of the buildings. As part of the proposed Master Plan, these buildings will be vacated and demolished. This centrally located parcel would then be utilized for the new Natural Grass Softball Field with scoreboard, spectator seating, team areas, and Natural Evergreen Batter's Eye. Adjacent to this field, a new parking lot will be built to accommodate a new Parking Lot with landscaped islands, accessible access and park entrance signage- of about 108 total parking spaces.

(6) New Men's Football/Soccer Field – Barry Field has been the location of Woonsocket High School's football field for many decades. Its geographical location is extremely poor as it is located on the opposite side of the City from Woonsocket High School. This has resulted in incurring large unneeded bussing and transportation costs over the years. The shower facilities at the field are in great need of restoration. The existing Barry Field site is located on a major traffic artery (Rte. 146A) and as such is very suitable and desirable for and having great value for future economic development, producing beneficial jobs and tax revenues for the City. Currently, there are deeded covenants on the parcel. The Master Plan includes the construction of a new football field that could also be utilized for lacrosse, field hockey and soccer. The proposed field will be located in the central area of the existing track (to be redesigned and expanded to accommodate the football field). This field will be a multi-use infilled

synthetic turf field, a football practice area in southwest "D" Area, 200'x348' soccer field, full size football field, and ability for lacrosse and field hockey.

(7) Improvements to and Expansion of the Track Facility. The City's track off of Cumberland Hill Road and adjacent to Cass Park was constructed over 30 years ago. The one-quarter mile track has been utilized by the high school track team for practice and meets, as well as by the general public as a walking track. At times, the track has required repair and resurfacing, and currently is in need of a full renovation. The grassed infield area is scruffy and is not utilized to its greatest potential. The proposal is to strip and install a new state-of-the-art rubberized track surface. The infield area would be regraded and synthetic turf may be installed for multiple uses by high school and other area sports teams, such as the high school field hockey, football, lacrosse and soccer teams. To maximize year-round use of the field, the current limited lighting system would be replaced by a new state-of-the-art system, similar to that recently installed at Renaud Field.

(8) Construction of Formal Area for Field Events – The existing track currently has adequate accommodations for the high jump, broad jump, and pole vault. New areas need to be constructed for the discus and hammer throws, shot put, and the javelin. These proposed improvements would allow the City to host local and state tournaments. It is proposed that the area to the northeasterly end of the track be utilized for these purposes and be properly orientated with landscaping as required to allow for the safe and efficient use for these events.

(9) Other proposed improvements: Re-design parking lot with new landscaped islands and accessible access to the Track and Field - 75 Total Spaces. Restroom, concessions, and storage building, plaza with flagpole, up-lighting, and signage. Grandstand bleachers with Press box (approximately 880 Seats), visitor bleachers (approximately 280 Seats). Long/triple jump and pole vault area. Sports lighting system. Natural/informal sloped seating/sledding hill. Double shot put area. Javelin and discus area. Open Programming Space (Construct New Picnic Grove – Several years ago, the City constructed a paved skate board facility adjacent to the Little League field. This use was eventually discontinued, and the boards, ramps, and obstacles were removed. Over the years, the City had a picnic facility located at the top of the hill at Cass Park. It is currently hardly utilized due to its lack of accessibility and security issues). New Dog Park. New accessible bridge and entrance signage.
