Subject: November 2019 Odor Report

Dear Councilors,

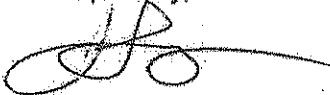

There were four (4) odor complaints filed with the Woonsocket Regional Wastewater Commission during the month of November 2019.

An odor study along with dispersion modeling was conducted by Bowker and Associates in July 2019. The final report was received in early November. All deficiencies have been addressed and resampling of the odor sources will be performed to confirm the efficacy of the corrective measures.

I've attached graphs of monthly odor complaints received since January of 2016 and yearly complaints received since 2008. I've also attached the monthly odor complaint log which outlines the details of the complaints as well as the possible or potential root causes.

If you have any questions or require additional information, please call me at 401.356.1468.

Respectfully,

John,

I am the managing partner for the ownership team on 43 Railroad St in Woonsocket. As I think you are aware we are working on developing this property and expect that we will have an opportunity to have a restaurant in the building which would likely require a liquor license as part of their business.

Could the city please submit the resolution to the council for a letter of support in order for our company to move forward requesting a liquor exemption for the property due to it's proximity to Beacon Charter.

I'd be glad to speak more on this as needed.

thanks!

Subject: FW: City of Woonsocket RFP #5849

Chairman Brien,

From our last correspondence with Attorney Christian Cappizzo, we were understanding that Mr. D'Agostino has requested a workshop with the Renewable Energy Subcommittee to discuss the responses provided by Green on 10-18-2019. Would we be invited to this workshop and have you set a date for this meeting? Please let us know so we can be best prepared. We at Green Development think that the City should be addressing the RFP response for Bid #5849 for City property development in parallel with a net metering credit agreement. The workshop would be a great opportunity to get the contracts in place and start saving the City some much needed money. From an economic perspective, the City is missing out on the opportunity to save over \$400,000 through energy savings alone. When City properties are developed there will also be significant tax and lease revenue benefits.

Thanks and we look forward to next steps with the City.

RESOLUTION

December 16, A.D. 2019

**DIRECTING THE DEPARTMENT OF PUBLIC WORKS TO AMEND
WOONSOCKET'S SNOW & ICE CONTROL POLICY AS IT RELATES
TO SIDEWALKS LEADING UP TO SCHOOLS**

WHEREAS, Woonsocket's youth are one of the populations most vulnerable to harm from icy and un-shoveled sidewalks; and

WHEREAS, the responsibility for providing snow and ice removal on Woonsocket's streets and roads rests with the Department of Public Works, as outlined in their 'Snow & Ice Control Policy'.

**NOW, THEREFORE, BE IT RESOLVED THAT THE CITY COUNCIL
OF THE CITY OF WOONSOCKET, RHODE ISLAND, AS FOLLOWS:**

Section 1. The Woonsocket City Council respectfully directs the Department of Public Works to amend the appropriate section of their Snow & Ice Control Policy to include the following:
"The Department of Public Works shall undertake to ensure that the sidewalks of any road or street within a 300 ft radius of the property line of each school within the jurisdiction of the Woonsocket Education Department, that is well-trafficked by the students of such school, shall be cleared of snow and ice on days in which school is in session as part of the Department's normal snow and ice removal operations.

The Director of Public Works shall, with the advice of the Superintendent and the Office of Facilities, Transportation, and Security of the Woonsocket Education Department, determine which sidewalks will reasonably require this action.”

Section 2. This resolution and the resulting amendment to the Snow & Ice Control Policy should not be construed to absolve third parties from any obligations regarding sidewalk snow removal. For any such sidewalk that is required by city law to be cleared of snow and ice by other parties, neither the Department of Public Works nor those other parties shall be relieved of its obligations. Rather, the responsibility is held jointly by all parties.”

Section 3. The Department of Public Works should perform this additional snow removal from their existing snow removal budget. Should they require additional funding at any point, due to the increase in labor-hours as a result of the above, the need for such an appropriation will be heard by the City Council at such a time.
