Funded by the US Department of Housing & Urban Development (HUD) through the HOME Investment Partnership Program, the City of Woonsocket (the City) is administering the FIRST HOME Down Payment Assistance Program. The goal of the First Home Program is to provide qualified Woonsocket home buyers with a loan in the amount of up to \$5,000 to assist with down payment in the purchase of their first home. HOME is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, as amended. Program regulations are at 24 CFR Part 92.

The no-interest loan will be partially forgiven (\$2,500 forgiven after 5 years) and partially deferred (\$2,500). Repayment of the deferred loan is made at the time of sale, exchange or transfer of title. No portion of the forgivable portion will be prorated prior to expiration of the 5-year period. In case of loan default, the loan is recaptured according the City's Recapture Policy.

Applicants who meet the necessary qualifications will receive their loan on a first-come, first-served basis. There are limited funds available, and the City reserves the right to expand or terminate the program depending on the availability of funds and/or market conditions.

Subsidy Layering Review

BUYER MUST COMPLETE SECTIONS I, II, III and IV OF THIS SUBSIDY LAYERING REVIEW

The City of Woonsocket's subsidy layering process for First Time HOME Buyers is required as part of the First Home Down Payment Assistance Program underwriting requirement. The City must demonstrate that it is not investing any more HOME funds, alone or in combination with other funds, than is necessary to provide quality, affordable, and financially viable housing for at least the duration of the affordability period.

****** THERE WILL BE NO CASH BACK TO BUYER ALLOWED WITH THE EXCEPTION OF BUYER CONTRIBUTIONS (Deposit, Appraisal, Credit, Inspection fees POC) *** Assistance is contingent upon final Settlement Statement evidencing project was not over-subsidized. ******

The Subsidy layering process includes a review of the following:

- I. All Sources and Uses of Funds to ensure a household or family is not receiving excessive subsidy given the need
- II. Front and Back End Ratios
- III. Loan to Value
- IV. Applicant Certification of No Additional Governmental Assistance

Before providing down payment assistance, the City HOME Program Administration must assess if other governmental assistance has been, or is expected to be, made available to the project. The aggregate amount of assistance from HUD and from other sources is considered to ensure the feasibility of the assisted project.

If no such governmental assistance is to be provided at the time of the application or in the future, the applicant(s) should certify to that fact on the Woonsocket Subsidy Layering Certification form in Section IV of this Subsidy Layering Review section.

What is Governmental Assistance?

Governmental assistance includes any loan, grant, (including Community Development Block Grant), guarantee, insurance, payment, rebate, subsidy, credit, tax benefit, or any other form of direct or indirect assistance from the Federal, State or local government for use in, or in connection with, a specific housing project (including 203k funds).

What are Maximum Per Unit Subsidy Limits

The amount of HOME funds that a PJ may invest on a per-unit basis in affordable housing may not exceed the per unit dollar limits established under section 221(d)(3) of the National Housing Act for elevator-type projects, involving nonprofit mortgagors that apply to the area in which the housing is located.

What if the project is over subsidized?

If the City determines that the total amount of HOME assistance and other governmental assistance exceeds the amount that the City determines is necessary to make the project feasible due to the unreasonableness of the costs and/or the projected rate of return, the City can reduce the amount of HOME assistance. The City may also consider other adjustment options such as reduce the term of the loan in order to lower the rate of return; or deny HOME assistance if the applicant refuses to make reasonable adjustments or to limit its return/costs.

WATCH OUT FOR LEAD BASED PAINT POISONING NOTIFICATION FORM – Page 1 of 2 pages (Signature Required)

TO: OWNERS AND TENANTS OF HOUSING CONSTRUCTED BEFORE 1978

If a property was constructed before 1978, there is a possibility it contains lead-based paint.

PLEASE READ THE FOLLOWING INFORMATION CONCERNING LEAD PAINT POISONING.

Sources of Lead Based Paint

The interiors of older homes and apartments often have layers of lead-based paint on the walls, ceilings, windowsills and doorframes. Lead-based paint and primers may also have been used on outside porches, railings, garages, fire escapes and lampposts. When the paint chips, flakes or peels off, there may be a real danger for babies and young children. Children may eat paint chips or chew on painted railings, windowsills or other items when parents are not around. Children can also ingest lead even if they do not specifically eat paint chips. For example, when children play in an area where there are loose paint chips or dust particles containing lead, they may get these particles on their hands, put their hands into their mouths, and ingest a dangerous amount of lead.

Hazards of Lead-Based Paint poisoning are dangerous--especially to children under the age of seven (7). It can eventually cause mental retardation, blindness and even death.

Symptoms of Lead-Based Paint Poisoning

Has your child been especially cranky or irritable? Is he or she eating normally? Does your child have stomachaches and vomiting? Does he or she complain about headaches? Is your child unwilling to play? These may be signs of lead poisoning. Many times though, there are no symptoms at all. Because there are no symptoms does not mean that you should not be concerned if you believe your child has been exposed to lead-based paint.

Advisability and Availability of Blood Lead Level Screening

If you suspect that your child has eaten chips of paint or someone told you this, you should take your child to the doctor or clinic for testing. If the test shows that your child has an elevated blood lead level, treatment is available. Contact your doctor or local health department for help or more information. Lead screening and treatment are available through the Medicaid Program for those who are eligible. If your child is identified as having an elevated blood lead level, you should immediately notify the Community Development or other agency to which you or your landlord is applying for rehabilitation assistance so the necessary steps can be taken to test your unit for lead based paint hazards. If your unit does have lead-based paint, you may be eligible for assistance to abate that hazard.

Precautions to Take to Prevent Lead-Based Paint Poisoning

You can avoid lead-based paint poisoning by performing some preventive maintenance. Look at your walls, ceilings, doorframes and windowsills. Are there places where the paint is peeling, flaking, chipping, or powdering? If so, there are some things you can do immediately to protect your child:

- (a) Cover all furniture and appliances;
- (b) Get a broom or stiff brush and remove all loose pieces of paint from walls, woodwork, window wells and ceilings;
- (c) Sweep up all pieces of paint and plaster and put them in a paper bag or wrap them in newspaper. Put these packages in the trash can. DO NOT BURN THEM.
- (d) Do not leave paint chips on the floor or in window wells. Damp mop floors and windowsills in and around the work area to remove all dust and paint particles. Keeping these areas clear of paint chips, dust and dirt is easy and very important; and
- (e) Do not allow loose paint to remain within your children's reach since children may pick loose paint off the lower part of the walls.

Homeowner Maintenance and Treatment of Lead-Based Paint Hazards

As a homeowner, you should take the necessary steps to keep your home in good shape. Water leaks from faulty plumbing, defective roofs and exterior holes or breaks may admit rain and dampness into the interior of your home. These conditions damage walls and ceilings and cause paint to peel, crack or flake. These conditions should be corrected immediately. Before

WATCH OUT FOR LEAD BASED PAINT POISONING NOTIFICATION FORM – PAGE 2 OF 2 PAGES (SIGNATURE REQUIRED)

repainting, all surfaces that are peeling, cracking, chipping or loose should be thoroughly cleaned by scraping or brushing the loose paint from the surface, then repainted with two (2) coats of non-lead paint.

Instead of scraping and repainting, the surface may be covered with other material such as wallboard, gypsum or paneling. Beware that when lead-based paint is removed by scraping or sanding, a dust is created, which may be hazardous. The dust can enter the body either by breathing or swallowing it. The use of heat or paint removers could create a vapor or fume which may cause poisoning if inhaled over a long period of time. Whenever possible, the removal of lead-based paint should take place when there are no children or pregnant women on the premises.

SIMPLY PAINTING OVER DEFECTIVE LEAD-BASED PAINT SURFACES DOES NOT ELIMINATE THE HAZARD. REMEMBER THAT YOU CAN AS AN ADULT PLAY A MAJOR ROLE IN THE PREVENTION OF LEAD POISONING. YOUR ACTIONS AND AWARENESS ABOUT THE LEAD PROBLEM CAN MAKE A BIG DIFFERENCE.

Tenant and Home buyer Responsibilities

You should immediately notify the management office or the agency through which you are purchasing your home if the unit has flaking, chipping, powdering or peeling paint, water leaks from plumbing, or a defective roof. You should cooperate with that office's effort to repair the unit.

I have reviewed the notice entitled "Watch Out for Lead Paint Poisoning."

The condition of the property must meet HUD Property Standards BEFORE CLOSING/ACQUISITION. (Guidelines include Uniform Physical Condition Standards definitions and RI Property Maintenance Code). The Program Construction Supervisor will perform a Buyer Program Inspection and provide a report to the buyer based on observed deficiencies which must be corrected before closing. It is recommended that the City Program inspection be conducted within the agreed upon inspection period to assist in negotiating repairs.

The Property Condition Assessment will be completed by the City on all homes for health and safety concerns and for Lead Based Paint hazards for homes built prior to 1978. Buyer is responsible for obtaining and providing the City with an "Acceptable Clearance Certificate" by a licensed lead inspector if required and correcting all repairs noted on the Program inspection.

Property Condition/Standards Inspection – to be conducted by the City. NOTE! The Program Inspection does not replace a formal home inspection completed by a professional. A home inspection is recommended by the Program in addition to the city's program inspection.

***** It is recommended for all parties involved to have the City's HOME Program inspection at the same time as your professional home inspection within the period allowed. *****

Equal Housing Opportunity Policy

The City of Woonsocket HOME Program is funded through the US Dept. of Housing & Urban Development Home Investment Partnership Program. In the administration of all City programs, the City of Woonsocket makes every effort to ensure non-discriminatory treatment, outreach and access to program resources.

Please let us know if your program participation requires specific accommodations for a disability, or if you need an interpreter and/or other auxiliary aid for effective communication.

Flood Insurance Policy

HOME-Assisted property owners are mandated to purchase and maintain flood insurance for structures located within the Special Flood Hazard Area or 100-year floodplain and submit policy documentation, as requested.

Refinancing / Subordination Policy

The City of Woonsocket is not legally required to agree to subordinate its mortgage to any new financing position. However, the City will consider the subordination of its mortgage(s) for refinancing proposals that adhere to the policy guidelines as detailed in the Subordination Request Application, available from the City of Woonsocket. The City will subordinate TO A SECOND POSITION ONLY.

Predatory Lending Policy

The City of Woonsocket opposes predatory lending. A predatory loan is an unsuitable loan designed to exploit vulnerable and unsophisticated borrowers. Predatory loans are a subset of sub-prime loans. A predatory loan has one or more of the following features: 1) charges more interest and fees than is required to cover the added risk of lending to borrowers with credit imperfections; 2) contains abusive terms and conditions that trap borrowers and lead to increased indebtedness; 3) does not take into account the borrower's ability to repay the loan; and 4) often violates fair lending laws by targeting women, minorities, and communities of color. Call The Housing Network at 1-800-436-3180 for more information. The Housing Network offers public education aimed at stopping predatory lending practices in the state. They educate families and individuals about how to avoid predatory lending scams and about

City of Woonsocket FIRST HOME Down Payment Assistance Program Application Package

available community resources. The Housing Network offers families a safe place to call before they sign anything that puts their home at risk. Additional lending information is available at www.consumerfinance.gov.

Recapture Policy

If the loan falls into default or the assisted owner elects to sell prior to the expiration of the affordability period, the entire amount of HOME assistance becomes due. The forgivable loan portion is forgiven in one lump sum upon the expiration of the affordability period.

However, if the owner elects to sell and there are no net proceeds from the sale, or the net proceeds are insufficient to repay the HOME investment due, 24 CFR Part 92 Interim Rule revised 92.254 clarifies that recaptures are limited to the amount of net proceeds (sale price minus loan repayment (other than HOME funds) and any closing costs).

Conflict of Interest Policy

No payment, bonus, commission or fee will be given or taken for the purpose of obtaining the City or its agent's approval or concurrence in connection with the procurement of this Loan.

No persons described in paragraph below titled "Persons Covered" who exercise or have exercised any functions or responsibilities with respect to activities assisted with HOME funds or who are in a position to participate in a decision-making process or gain inside information with regard to these activities, may obtain a financial interest or benefit from a HOME-assisted activity, or have an interest in any contract, subcontract or agreement with respect thereto, or the proceeds thereunder, either for themselves or those with whom they have family or business ties, during their tenure or for one year thereafter.

Persons covered. The conflict of interest provisions of paragraph (b) of this section apply to any person who is an employee, agent, consultant, officer, or elected official or appointed official of the participating jurisdiction, State recipient, or subrecipient which are receiving HOME funds.

Uniform Relocation Act

Because the Applicant, not the City, will take responsibility for the selection and negotiation of a dwelling unit, the requirements of the Uniform Relocation and Real Property Acquisition Policies Act of 1970 (URA) are not triggered. The City reserves the right to deny assistance in circumstances in which compliance with the URA may be required.
